Objective

Motivated 3rd year B.E student seeking internship opportunities to apply technical skills and gain practical experience in software development and problem-solving.

Education

B.E in Information Science and Engineering
Bapuji Institute of Engineering and Technology, Karnataka
Expected Graduation: 2027
CGPA: 8.72/10

Class 12 (PUC)
Sir M Visvesvaraya PU College – 92%

Class 10
Sri Taralabalu Central School – 77%

Skills

- Python
- Java
- HTML,Javascript,CSS
- Teamwork

Projects

Building a Diffusion Model From Scratch

- Built a Denoising Diffusion Probabilistic Model (DDPM) from scratch, implementing forward and reverse diffusion processes with a U-Net architecture for image generation.
- Trained and optimized the model on standard datasets using PyTorch, applying noise scheduling and sampling techniques to generate high-quality images.

Certifications

- Programming in Java - NPTEL
- Getting Started with Artificial Intelligence - IBM SkillsBuild
- Introduction to Generative AI - IBM SkillsBuild

Achievements

- Participated in National-level Hackathon and reached top 10 among 40+ teams.
- Participated in college-level Hackathon.

Extra-Curricular Activities

- Volunteered in college as a student mentor, helping peers complete and succeed in the course.
- Organized and Coordinated a technical coding competition, handling logistics and participant engagement, during department fest.
